ABOUT ME

Fifth-semester Computer Science student at BINUS University Bandung, focused on artificial intelligence and intelligent systems. I study machine learning, computer vision, natural language processing, data science, and web development, and I apply them through projects and research. I have been active in committees and organizations since junior high school, so working in a team and managing my time come naturally. I adapt quickly, enjoy learning new things, and do voice over on the side to practice communication.

EDUCATION

BINUS University, Bandung 2024 – Present
B.Sc. in Computer Science, School of Computer Science (5th semester)

SMA Daarut Tauhiid Boarding School Putri 2021 – 2024
Senior high school with a modern Islamic boarding program

ORGANIZATIONS AND COMMITTEES

First Year Program Leader | BINUS@Bandung, Binusian 2029 2025 – 2026
- Guided new students through orientation and their transition to university life.
- Facilitated campus introduction activities, character building, and soft skill development, and helped coordinate the team.

Human Resource Development Activist | Bina Nusantara Computer Club (BNCC) Bandung 2025 – Present
- Active in a student club focused on technology and computing, within the Human Resource Development division.
- Help manage members, coordinate the team, and run the division's internal development programs.

Committee Member, CROWN Social Service Team | Internal school event 2022
- Took part in planning and running a social service activity.
- Helped with team coordination, aid distribution, and documentation.

PROJECTS

Tala | UI/UX, Product Design, Culture
A creative career platform that connects Indonesian creatives and clients through portfolios, cultural identity, projects, and transparent contracts.

Plant Recommendation Prediction | Python, Machine Learning, Logistic Regression
A machine learning web app that predicts and recommends plants using Logistic Regression across six plant classes.

Salingka | Web Design, Ecotourism, Sustainability
A sustainable ecotourism website concept showcasing rainforest destinations and tourism potential in Sumatra.

RESEARCH

Application of First-Order Markov Chain Models in Earthquake Activity Prediction
Research using First-Order Markov Chain models to analyze earthquake activity from historical data.

Skin Lesion Classification
Skin lesion classification research using deep learning and Explainable AI to keep the model transparent.

COMPETITIONS AND ACADEMIC ACTIVITIES

Delegate, Youth Learning Summit (Singapore and Malaysia) 2025
Pemuda Internasional and Ikutlomba
Joined an international program on innovation and cross-country cooperation for sustainable development, with cross-cultural discussions and leadership practice.

Semi-Finalist, Ganesha Business Festival 2023
School of Business and Management, Institut Teknologi Bandung
Wrote a business proposal, "The Innovative Business Idea: Diving Deep to Searching Lantern as Lighting in Facing 2023 Gelap Gulita", and reached the national semi-finals.

Participant, National Zoology Olympiad 2022
Universitas Gadjah Mada

Participant, Voice Over Competition, Customs and Excise Festival for High School 2022
Directorate General of Customs and Excise, Ministry of Finance of Indonesia

TRAINING AND CERTIFICATIONS

Microsoft Azure AI Fundamentals (AI-900T00-A) March 2026
GreatNusa by Bina Nusantara with Microsoft Indonesia, 15 hours. Covered AI basics, machine learning, computer vision, and NLP on Azure.

C Programming Training Oct – Nov 2024
WebHozz Media, Bandung. Control structures, functions, arrays, and memory management basics.

SmartPath Data Analyst Webinar 2025
The role and basic skills of a data analyst in industry.

HRD Certificate, BNCC (BINUS Computer Club)

SKILLS

Programming and Web: Python, C, HTML, CSS, React
AI and Data: Artificial Intelligence, Machine Learning, Computer Vision, Natural Language Processing, Data Science
Design: UI/UX Design
Languages: Indonesian (native), English (active), German (learning)
Tools: Microsoft Azure AI Fundamentals, Microsoft Office (Word, Excel, PowerPoint)
Soft skills: Teamwork, communication, time management, leadership, adaptability
Other: Voice over (hobby and competition experience)

INTERESTS

Software development, artificial intelligence, voice over, student leadership, yoga, culinary exploring, and traveling to learn about new cultures.
